

## Says Acheson Lies on Soviet Plan in China

Moscow, Jan. 21 (AP)—Foreign Minister Andrei Y. Vishinsky said today U. S. Secretary of State Dean Acheson's charge that Russia is annexing four North China provinces is a "lying and slanderous declaration."

Vishinsky made his statement in an unusual press release to foreign correspondents, coinciding with the arrival in Moscow of Chou En-lai, foreign minister of the Russian-recognized Chinese People's Republic.

Chou's arrival led to the belief that negotiations for a treaty of friendship between Russia and the new Chinese Republic of Communist leader Mao Tse-tung were nearing an important climax. Mao has been in Moscow for a month.

Vishinsky, commenting on statements by Acheson at the National Press Club in Washington, Jan. 12 that Russia is taking over Manchuria, Inner and Outer Mongolia and Sinkiang, said they were intended "to put a good face on a bad game—the failure of American policy in Asia."

Vishinsky also accused Acheson of uncovering his own "annexationist plans in relation to Japan and also the Philippines and Ryukyu (islands of the north Pacific)."

Acheson, he said, declared "these non-American territories in the defensive line of the United States which, as is well-known, is in the line of aggression."

"In this," Vishinsky declared, "Acheson said much of his wish to give help to the people of Asia clearly hinting that reactionary forces in these countries and also the colonial powers, not wishing to say goodbye to the exploitation of peoples in Asia, can count on all help from the side of Mr. Acheson."

"The secretary of state said the United States has 'and will continue to hold' a 'defensive perimeter' running along the Aleutians to Japan, to the Ryukyus and down to the Philippines."

The State Department in Washington made no immediate comment on the Vishinsky statement.

**Importance Attached**  
Special importance was seen in the statement since it was handed to foreign correspondents at the Kremlin. Usually accusations by foreign statesmen are answered publicly through the government news agency Tass or the newspapers Pravda and Izvestia.

"In all these declarations by Acheson there is not one word of truth," Vishinsky said.

The foreign minister said Outer Mongolia had been an independent country for the past 30 years.

The other three areas mentioned by Acheson, he said, are integral parts of China. He added that the new Chinese people's republic is capable of defending the interests of its own country, its own territory and its own people.

**'Short Line' Heard  
On Application for  
Increase in Fares**  
New York, Jan. 20 (Special)—In a move to get an increase in its intrastate fares to bring them in line with its higher interstate rates, the Hudson Transit Corporation, operating routes in Orange, Rockland, Ulster and Sullivan counties, went before the Public Service Commission in New York today.

The company, affiliated with the Hudson Transit Lines, the investment division of the company known as the Short Line, Inc., is asking for an increase in fares from 5 cents to 65 cents, the latter advance being sought on the trip from Suffern to Roseton on its Suffern to Binghamton division for which the fare is now \$1.85.

The attorney for the company, James F. O'Brien, told Harold O'Brien, that a disparity exists in the rates charged passengers coming into New York state from other states and those traveling within that state. The interstate rates, which are higher, were established by the Interstate Commerce Commission.

By approving the company's petition to raise intrastate rates in the amounts asked, an "equalization" would be achieved, O'Brien told the P.S.C.

Some of the increases asked are as follows: Wurtsboro to Ellenville, 5 cents; Ellenville to Glen Head, 10 cents; Ellenville to Harman, 25 cents; Ellenville to Central Valley, 15 cents; Ellenville to Macomb, 5 cents.

O'Brien did not appear to be impressed by the higher fare move, he told O'Brien, after it was made known that the only reason advanced for the increase was to eliminate an "inequality" that was a usual reason for granting an increase.

He told O'Brien that the P.S.C. had proceeded on such a hypothesis which would be tantamount to permitting the I.C.C. to decide rates to be charged within this state.

He advised O'Brien to proceed, he could on the basis that the company is being charged for carrying the company a fair rate on its investment.

### Truman Program In for Hard Time

### Observation Made Despite Smarting Defeat Given G.O.P.-Dixie Group

Washington, Jan. 21 (AP)—Administration leaders saw little prospect today of smooth sailing for the Truman program, despite the smarting defeat they handed a G.O.P.-Dixie coalition trying to take control of the House.

Much credit for their 236 to 183 triumph, they said, must go to the civil rights issue which cost the coalition a large chunk of Republican votes.

They got little comfort from a Republican hint that a new effort to change the House rules may be made later.

The test yesterday was on a coalition-backed move to give the Rules Committee virtual life-and-death control over major legislation. The committee is dominated by Republican and southern members.

The debate that preceded the showdown left no doubt that the President's program was a major issue. Leaders of both sides said as much.

"The issue is whether or not the entire Truman program will succeed or be defeated," said Rep. Allen (R-Ill.), top minority member of the Rules Committee.

"The gentleman from Illinois, Mr. Allen, has laid down the issue," said Speaker Sam Rayburn of Texas, head of the Truman forces.

The coalition had proposed to (Continued on Page 9, Col. 8)

### Man Is Held

Norwalk, Conn., Jan. 21 (AP)—A man who allegedly threatened the conductor of a New Haven-bound railroad train with a revolver here today is being held, police said, as a suspect in a Bronx liquor store holdup last night.

Police Sgt. Philip Sherwood identified him as Donald Leo Murphy, 27, of 265 E. 182 street, New York city, and said he had been spotted on charges of illegal possession of firearms, drunkenness and breach of the peace.

### Police Pick Up Manter, Absent From Work; Answers 'Hazy' Is Report

Boston, Jan. 21 (AP)—A veteran Brink's employee was still under questioning today and police said he would be "until we clean up one angle" in the hunt for the Halloween-masked gang who looted the armored car firm of a million dollars.

Capt. Francis M. Tiernan said William E. Manter, 49, a 22-year employee of Brink's Inc., was still held after being picked up last night when a police alarm went out for him.

Tiernan spoke of the "one angle" but would not say anything more about it.

The search turned today to a western Massachusetts city, Tiernan said, but he said he could not identify the city or say why it figured in the nation's greatest cash raid.

A second Brink's employee, Gerard Effatt, left headquarters today and Tiernan said he "only came in for questioning and was very cooperative."

Piaff was one of the five guards surprised in the Tuesday night 20-minute stickup in Brink's counting room in a north end garage.

Two Boston detectives were in New York today but police here said they could give no report on the investigation.

Still under consideration, police said, was a report from a woman early this week who said she saw the bandit car arrive outside the Brink's Garage.

Police quoted the woman as saying she "got a good look" at two men who stepped from that car.

Manter was picked up last night after police sounded an alarm that he had failed to report for work yesterday.

Piaff was brought to headquarters several hours later.

Daley said that Piaff was summoned to assist in questioning of Manter, but the men were placed in separate rooms and grilled individually.

The detectives moved back and forth between the two rooms but declined to give any definite information.

## Bulgaria Expected To Stand Fast on Break With U. S.

### Informed Officials See Soviet Union's Hand; Would Chase U. S. From Sofia

Washington, Jan. 21 (AP)—Informed officials said today they look for Bulgaria to stand fast—possibly on orders from Moscow—against a United States threat to break off diplomatic relations.

Expressing the suspicion that the Soviet Union had called the signals on the Bulgarian demand for the recall of U. S. Minister Donald Heath, these diplomatic authorities said the Russians may welcome a chance to force American officials out of Sofia entirely.

The United States, replying to the recall note yesterday, declared bluntly that it will withdraw its entire diplomatic mission from Bulgaria and send Bulgarian diplomats in this country home unless the Communist government at Sofia drops its insistence on getting Heath out.

**Tough Policy**  
The American government thus indicated that it has adopted a tough policy toward the Communist satellite governments of eastern Europe in respect to the treatment of American officials and citizens there.

The note to Bulgaria threatened to break relations unless the Bulgarian government did two things: (1) Withdraw its request for Heath's recall; (2) demonstrated "its willingness to observe established international standards of conduct" in the treatment of American diplomats.

The note held that restrictions on the movement of U. S. officials in Sofia and "indignities" which they have suffered have made it "virtually impossible for the legation to perform its normal diplomatic and consular functions."

This made it clear that one of the reasons behind the decision to break relations unless the Bulgarians change their conduct is a feeling here that it has become useless to maintain American representatives in Sofia under present conditions.

**General Withdrawal**  
Restrictions on American officials in Bulgaria are matched in some degree in other eastern European countries. The policy of breaking relations, therefore, could lead to a general withdrawal of American representatives from several of those countries if conditions in them got very much worse.

The demand for Heath's recall was based on charges made against him in the political trial of former Vice Premier Traicho Kostov late last year.

Heath was accused of having helped Kostov promote Bulgarian Trotskyism, the proper respect for Moscow, the United States has repeatedly denied the charges, claiming that Heath had no substantial contacts with Kostov at all.

### Slayer of Girl's Father Is Convicted

Minneapolis, N. Y., Jan. 21 (AP)—De Witt F. Combs, the 23-year-old former marine who killed his sweetheart's father in a midnight gun duel, will go to Sing Sing prison for from 10 to 20 years.

Combs was convicted of first degree manslaughter Jan. 6, and Nassau County Judge J. A. Colman handed down the sentence yesterday.

Rita Fay, the tall, slender brunette Combs said he loved, was not in court to hear the sentence, although she attended much of the trial and testified she comforted him after the killing.

Combs blamed his slaying victim—58-year-old Francis B. Fay—on his own actions. Combs went to the Fay home the night of last Nov. 16 carrying a shotgun and intent on a reconciliation talk with Rita. Instead he and Fay met in the basement darkness and shot it out, pistol against shotgun, with Fay falling.

The young veteran pleaded innocent by reason of temporary insanity and self-defense, claiming he carried the shotgun because of Fay's threats.

**'Coalition' Chinese Are  
Prisoners of Reds**  
Hong Kong, Jan. 21 (AP)—Minority party leaders of the Chinese Communist "coalition government" today were reported to be virtual prisoners of the Reds in Peiping.

Associates of the minority party chiefs arriving from the Red capital made the accusation but asked that their names be withheld.

These sources said members of the Democratic League and the Kuomintang (Nationalist) revolutionary committee are often excluded from important policy-making meetings although they have been given high nominal posts in the Red government.

News of Mao Tse-tung's visit to Moscow came as a surprise to them, they said. The No. 1 Chinese Red has been in the Russian capital for more than a month.

## Hanley Is Main Lincoln Speaker

The dinner is being co-sponsored by the women's club and the Republican Central Committee.

The dinner will start on Feb. 15 at 7 p. m.

Further information regarding other guests and tickets will be announced, Mrs. Connelly said.

## City Men Credited In Friday's Rescue Of Dutchess Youth

### David Berry, 7, and Dog Spotted From Air by Nace and Collins of Kingston

David Berry, 7, is resting comfortably at Vassar Hospital today after his 19-hour stay on the snowy ledge of Clove Mountain in Dutchess county in near zero weather.

He suffered frostbite on his fingers and cheeks from his all-night adventure, but the hospital reported his condition as good.

State police at Fishkill credited Jack Stanley McClay, 40, of Manchester road, Poughkeepsie, with finding the boy, but several Kingston members of the 156th Field Artillery, New York National Guard, figured prominently in his rescue.

Warrant Officer, junior grade, Thomas W. Miller, an administrative assistant at local guard headquarters, said that Sgt. John Reynolds, on the ground in a jeep, looked into the valley nearby to assist ground searches.

With six persons on the jeep, Reynolds left the hard surfaced road and started toward the location indicated by the plane crew. In the party on the jeep were state troopers, a retired army major and Delos Berry, the child's father. Miller said, meanwhile, Lt. Nace landed his L-16 observation plane in the valley nearby to assist ground searches.

About the same time, according to reports of Sheriff Fred Close and state police, McClay, a volunteer who had wandered from a rescue party, discovered David, and called to Deputy Sheriff Frank Davis, who began carrying the boy piggy-back to the road.

When the jeep party met Davis, McClay and the boy, they took the boy on the jeep to the highway, where he was transferred to an automobile and taken to his Clove Valley home. From there, an ambulance conveyed him to the hospital.

The boy and his dog wandered away from home Thursday afternoon, starting a search that drew a rescue party of about 500 men. He had spent the night, shivering biscuits that David carried, in a pigsty in the heavily wooded ridge of Clove Mountain in sparsely populated Union Vale township about 15 miles southeast of Poughkeepsie.

### Commies Deny Plan

Hong Kong, Jan. 21 (AP)—The Chinese Communists today denied that Russia is attempting to annex northern China, or that they were "running dogs of the Soviet Union."

The young veterans pleaded innocent by reason of temporary insanity and self-defense, claiming he carried the shotgun because of Fay's threats.

These sources said members of the Democratic League and the Kuomintang (Nationalist) revolutionary committee are often excluded from important policy-making meetings although they have been given high nominal posts in the Red government.

News of Mao Tse-tung's visit to Moscow came as a surprise to them, they said. The No. 1 Chinese Red has been in the Russian capital for more than a month.

## Dewey Blames Excise Taxes For Causing Unemployment

### Rural Roads Are Behind 40 Years

### Called Threat to Motorists at Meeting Held by Highway Builders

New York, Jan. 21 (AP)—The rural roads in New York state are "40 years behind usefulness," and a threat to the lives of motorists, says the president of the New York State County Superintendents Association.

Gall Ball, of Auburn, N. Y., spoke yesterday at a meeting of the Northeastern Division of the American Road Building Association and American Institute of Local Highway Administration.

He said "thousands of miles" of the state's rural roads "are dangerous and often rendered impassable by adverse weather."

"It is quite common," he said, "to find some of these antiquated, deteriorated routes closed to school buses by frost."

Charles J. Golsier, of Barryville, N. Y., Sullivan county superintendent of highways, said 1,000 miles of his county's 1,400 miles of town, county and state routes are in hazardous condition.

"The lives of our school children," he said, "are in constant (Continued on Page 9, Col. 6)"

Gasoline poured into the street about 9 a. m. today when the faucet broke off a Shell Oil Company truck that was delivering gasoline to the station at the corner of Wurts and McEntee streets, the fire department reported.

The gasoline so that it would not be ignited, and the Board of Public Works sent a sanding crew to sand the ice which formed after the water had frozen.

### Tells Publishers He Is in Favor of Repeal; New York Hit Very Hard

Albany, N. Y., Jan. 21 (AP)—Governor Dewey says he favors immediate repeal of federal wartime excise taxes, which he claims have "caused widespread unemployment in many industries" in the state.

Dewey spoke last night at the 29th annual convention of the New York State Publishers Association. The two-day session ended today.

The governor said he would confer "soon with the Republican members of Congress from New York" to press for repeal of the levies.

Dewey said the wartime taxes, on such items as furs, jewelry, luggage, cosmetics, transportation tickets, and photographic products were imposed "to make people buy less."

"The law worked and that was good. But here, and now, in peacetime, the law is still working to the same effect and that is bad. It is worst of all for New York state."

Dewey mentioned that the levies had caused "wide-spread unemployment in our state."

**Hit New York Hard**  
"By the very nature of the goods affected by these taxes, they hit harder at New York state than anywhere else."

"It is time," he continued, that "the war-time measure aimed at our own destruction was repealed."

He said that 77 per cent of all full industries production workers were employed in New York state, 45 per cent of the workers in the luggage and small leather industry, 26 per cent of the jewelry workers, 33 per cent of the cosmetic industry employees and 65 (Continued on Page 9, Col. 4)

## Flood Conditions Improve in Major U. S. Watersheds

(By The Associated Press)  
Floodwaters continued to menace areas in the midwest, south and Pacific northwest today but conditions in the major watersheds generally appeared improved.

The Mississippi river flood crisis in the Missouri-Texas region appeared to have passed. But the 11,400 refugees from the Burma Point-New Madrid floodway in southern Missouri were cautioned not to move back to their homes prematurely.

There also was a marked improvement in the Snake river situation. There were only a few areas of cold spots and only few areas had rain or snow. Temperatures generally moderated. The weather bureau reported "hot" weather in parts of the Rocky Mountains. The mercury hit 92 at Sheridan, Wyo., and 90 at Billings, Mont.

Temperatures in the central and northern Rockies and parts of the central great plains climbed 30 to 40 degrees yesterday. The high at Pueblo, Colo., was 75, a record for the winter season. At Goodland, Kans., the top was 73 and it was 69 at Denver. The 57 at Salt Lake City was a record for the date.

The only sub-zero areas today were parts of Minnesota and North Dakota and in northern New England. Some snow fell in Pennsylvania and New York and Michigan. There was a rain belt from northern California into the Pacific northwest and western Montana.

The rains in the Pacific northwest came as many rivers spilled over their banks. National guard units in Washington were alerted for flood emergencies.

The heavy rains and thawing which brought flood threats in the Pacific northwest also caused landslides in the Cascade Mountains which blocked east-west highway travel in Washington and along the Columbia river of Oregon. Trains were delayed as much as 24 hours.

The Columbia river highway was blocked after a series of snow and earth slides and the Oregon trail from Portland to Astoria was periodically impassable.

Rug service was halted in Washington and curtailed in Oregon.

## Maier Memorial Scheduled Sunday

DR. WALTER A. MAIER

The regular worship service in Immanuel Evangelical Lutheran Church on Livingston street Sunday at 10 a. m. will be a memorial service for the late Dr. Walter A. Maier whose death in St. Louis was announced January 11. Dr. Maier had been the regular speaker on the International Lutheran Radio Hour entitled, "Bringing Christ to the Nations" for 17 seasons. His voice was known to an estimated audience of 20 million who heard him over the Mutual and American Broadcasting systems every Sunday. His messages were translated into 35 additional tongues for re-broadcast into all corners of the globe.

Dr. Maier was known intimately by many persons in Kingston. Many members of the local Immanuel congregation had met him when he held the position of executive secretary of the International Lutheran League, the youth organization of the Lutheran Church-Missouri Synod. His articles in the Waltham League Messenger were eagerly read when he became the editor of that youth

Rev. Paul Dieckman of Wagner College and the Rev. Dr. Paul Hoh, president of the Philadelphia Lutheran Seminary.

publication, a position he retained after he was called to the chair of Semitic languages and Old Testament interpretation at Concordia Theological Seminary in St. Louis.

Attended Jubilee Here  
In the summer of 1936, Dr. Maier came to Kingston for the silver jubilee of the Albany District Waltham League. He delivered a stirring address before a large audience in the municipal auditorium on the theme, "Prepared for Promises." Last year he came to this city again in April for a Lutheran Hour rally, after conducting his regular nation-wide broadcast from the local station WKNY at 12:30, he later addressed a meeting of over 1,600 persons on the theme, "The Time is Short—Go and Tell!"

Dr. Maier was known as a fundamentalist in his religious convictions, but he deplored being designated as a "fanatic." In the funeral service conducted Saturday, Jan. 14, in the chapel of the century-old Concordia Seminary in St. Louis Dr. Herman Etzold, sought to evaluate the work of Dr. Maier in these words: "Dr. Maier's voice was raised, with the clarity of a Jeremiah, against wickedness in high and low places, against false teachings and philosophies which robbed men of Christ and forgiveness through His blood. He never dissipated his time and energy in vain disputings, but always came to the point with the Christian message: 'The blood of Jesus Christ, God's Son, cleanseth us from all sin.' All who came into contact with him were impressed by the fact that he was able simply to say with the apostle Paul: 'I am not ashamed of the Gospel of Christ.' In the present crisis in the world he pleaded for a strong Christian advance as the most promising weapon against the forces of atheism and communism. Incidentally, this venture was conducted on its present scale by other speakers over the Lutheran Radio Hour."

At the service Sunday morning the Rev. Ernest L. Witte will preach on the text 2 Corinthians 4:8 and the theme, "The Eternal Refuge in Trouble." The organist, Wladimir Bloch, will direct the junior choir in the singing of the anthem, "Thou Wilt Keep Him in Peace." The public is invited.

## Redeemer Church Plans to Install Officers Sunday

The annual installation of deacons and elders of the Evangelical Lutheran Church of the Redeemer, Wurts and Rogers streets, will be held at the service at 10:45 a. m., Sunday. ## The Winter Social Season

As the colder months take over we turn more and more to social events of all kinds for entertainment and pleasure.

There are dances and banquets. Card parties. And private affairs from cozy select dinner parties to elaborate public gatherings where it seems the whole town turns out.

But whatever the nature of the social event if it has news value and is of general interest to a goodly number of our readers it is the stuff of which our social news is made and the details are assembled and checked for publication at the proper time.

## MODENA

Modena, Jan. 21—Miss Joan Wahl, daughter of Mr. and Mrs. Mac Wahl, who recently represented the New Paltz High School at the annual oratorical contest in the Walkill School, received an additional award of a pen and pencil set from a representative of the Ulster County American Legion Tuesday. Miss Wahl, who was third in the contest, received \$5 from the Legion, sponsors of the contest. Nine schools were represented and Miss Wahl was the first contestant entered by the New Paltz school to receive an award. Miss Wahl spoke on "Democracy and the Constitution."

Ralph Garcia of Plattkill was a caller in town Monday in the interest of the annual March of Dimes campaign for the National Infantile Paralysis Fund. Vernon Terwilliger of Lloyd is employed on the fruit farm of Michael Lombo.

Mac Wahl, who recently accompanied his family to Modena from a holiday trip to Florida, returned there Friday where he will spend a few weeks with friends.

Measures are being considered by the Board of Education of the Walkill Central School to relieve the trend of overcrowded classrooms in the Walkill school and to transfer pupils from such rooms to the two-room schools in Modena and Leontitide which at present are not being used to capacity. The need for kindergarten classes in the Modena, Plattkill and Leontitide schools, presents a further complication in the matter.

School was dismissed an hour early Monday when the teachers, Mrs. Melissa Boyce of Walkill and Mrs. Katherine Van Vleet of New Paltz, attended a teachers' meeting.

Many local fruit growers are planning to attend the 95th annual New York State Horticultural Society meeting in Kingston January 25, 26 and 27.

Mr. and Mrs. Harry Roosa and Joan Hartney will vacate the large farmhouse in the near future which was recently purchased by Albert Moran, south of Modena village. Mr. and Mrs. Roosa will move in the bungalow adjacent to the Moran property now occupied by Mr. and Mrs. William Roosa and family.

The recent continued rainfall, as well as melting snow, has replenished water supplies which were dangerously low, or completely nil during the severe drought of the past fall.

Local members of the Walkill Central School senior class attended a roast beef supper on Wednesday evening in the community hall of the Walkill Reformed Church. Proceeds from the supper will add to the fund to be used for expenses on the annual Washington, D. C. trip which the seniors have planned for spring.

The regular meeting of the Women's Society of Christian Service of the Modena Methodist Church will be held Thursday, Feb. 2, Place of meeting to be announced later.

The second lesson on "Chair Canning" is planned by the Modena Home Bureau unit for Wednesday, Jan. 25. The leader demonstrating the work will be Miss Francis Elliott of Putnam.

The rainy spring weather which has intermittently appeared in this section is in sharp contrast to that experienced 30 years ago by old timers when the mercury dipped to 16 degrees below zero. Records mention high winds accompanying the severe cold during the past week. In February 1927 snow drifts of six and seven feet high were recorded.

Mrs. Earl DeWitt was a visitor in New Paltz Tuesday.

**School Council**  
To Meet Wednesday

Sunday School Council of Kingston will convene Wednesday, January 25, at 7:30 p. m. in the Fair Street Reformed Church. Announcements of this meeting have been sent to 22 church schools of Kingston and environs which have previously voiced an interest in the cooperative efforts. Others are welcome.

The committee chairman asks all to attend as activities of the council will be planned for the year 1950. Items to be discussed will be a unified Easter Dawn service, uniform rally day observance, teacher training course accredited by the Federal Council of Churches.

**Religious Radio Programs**  
In cooperation with Station WKNY, the Kingston Ministerial Association will sponsor the following broadcasts of Christian faith and life during the coming week. The devotions each day Monday through Friday, at 8:45 a. m. will have the following ministers officiating, as indicated: Monday, the Rev. Philip N. Saunders of the Central Baptist Church; Tuesday, the Rev. Herbert Killander, Informer Pastor of the Flatbush Reformed Church; Wednesday, the Rev. Ivan E. Goss of Trinity Methodist Church; Thursday, the Rev. Olive E. Cook of Christ Lutheran Church; Woodstock: Friday, the Rev. Kenneth Pearson of the First Church of the Nazarene; Saturday, at 8:45 a. m., the International Sunday School Lesson will be presented by Li P. Galt, superintendent of the Reformed Church of the Comforter school.

## Says U. S. Economy Is Affected by Farm Drops

Washington, Jan. 21 (AP)—Secretary of Agriculture Brannan sounded a warning today that the nation's entire economy is being endangered by a \$2,000,000,000-a-year drop in farmers' purchasing power.

In terms of 1947 dollars, farm families have been losing purchasing power at that rate for two years, Brannan told a House committee.

"It could drop another \$2,000,000,000 in 1950, or another 15 per cent, if farm prices aren't improved," he said, adding:

"I cannot conceive of a growing economy during a period when agriculture is going through an economic wringer. We must guard against that."

Brannan's statement was released by the House Appropriations Committee. He made it as he appeared before a subcommittee to argue for his department's appropriation for the next year.

### OFFICE CAT

(Trade Mark Reg.)  
By Junius

**Rah Deal**  
Smith sent his son to college with a pat upon his back. Smith spent five thousand dollars and got a quartet back.  
—Leo J. Burke

First Girl—I had a date with the world's stingiest man last night.  
Second Girl—Oh, so you're the babe who's been running around with his husband?  
Just stop a moment and listen to the noise from your office and in the street. A majority of these annoying sounds could be reduced or eliminated entirely.  
Business will be better when shoe sales wait out faster than trouser seats.  
Professor (to class)—There's a young man in this class making a jackass of himself. When he is through, I'll start.  
Alutraz "The pen with a lifetime guarantee."  
Traveling Daze  
Some rest and change were needed.  
So the family traveled west. But the bellhops got the change.  
And the hotels got the rest.  
If B. Bazemore

The first American newspaper, Public Occurrences, issued in 1780 was suppressed by the governor of Massachusetts after a single issue.  
Business Man—What do you do with all these pictures you paint?  
Artist—I sell them, sir.  
Business Man—Name your figure and report Monday I've been looking for a salesman like you for years.  
A modest girl never pursues a man, nor does a mousetrap pursue a mouse.  
The producer of a local dramatic society was giving final instructions before the curtain went up on the 1st night of the show "Now don't forget," he told the heroine, "When the villain takes you in his arms you have to call out loudly, 'Please save me! Oh! Oh! Oh!'"  
But the heroine a telephone girl, brought down the house when she absentmindedly cried, "Please save me Oh, double-Oh!"

### THEY'LL DO IT EVERY TIME

(Registered U. S. Patent Office) By Jimmy Hatlo

WHY IS IT THE BUTTONS ON A NEW SUIT SEEM TO POP OFF, OH, SO EASY...?

OOPS! THERE GOES A BUTTON... THEY DON'T SEEM TO SEW 'EM ON GOOD ON A NEW SUIT...

AND THAT SEAM UNDER YOUR ARM IS COMING APART!

BUT JUST TRY TO TAKE THE TAGS OFF...

BOY! THEY MUST HAVE PUT 'EM ON WITH ELEVATOR CABLE!

I CUT THE THREADS IN 3 PLACES... GET ME THE SCISSORS AGAIN, JUNIOR.

THANK TO H.R. WRASSE, DR. 333 N. M. VIEW DR. SAN DIEGO (4) CALIF.

### BARBS

It'll be a lot easier for newlyweds to feather their nests when prices are down.  
Most people are right, in their way, according to a writer. Yeah—so long as they're not in ours.  
Beefsteak has no curative value when applied to a black eye, says a doctor. But a good, old-fashioned beef often causes a nice shiner.  
American girls have tried them all, but the best finishing school remains matrimony.  
In a Kentucky town a pick-pocket robbed a girl in the sheriff's office. Two deputies present escaped without loss.  
Many a man who is proud of his right to say what he pleases wishes he had the courage to do so.

### FUNNY BUSINESS

By Herschberger

"The cold snap has brought out Joe's automatic thumb again!"

### CARNIVAL

By Dick Turner

"I just decided I'd stop putting off having them pulled, doc—what with meat the price it is and all."

### OUT OUR WAY

By J. R. Williams

NOW CAN YOU EVEN EXPECT TO CATCH A HUSBAND? MEN LIKE GOOD FOOD AND THEY ALSO LIKE IT ATTRACTIVELY SERVED!  
NOW PLEASE DON'T TELL ME AGAIN THAT I'LL NEVER KETCH A HUSBAND! YOU CAN OVERDO BEING A GOOD COOK! THAT'S WHY YOU NEVER GET TAKEN OUT TO EAT!

BORN THIRTY YEARS TOO SOON

### FRECKLES AND HIS FRIENDS

MOM, QUICK! DROP EVERYTHING! POP SAYS IT'S THE SAME ONE, AND HE'S YOU'VE LOST IT, ILL...  
WHAT ARE YOU BABBLING ABOUT, SON?  
POP'S OLD COONSKIN COAT! HE SAYS YOU KNOW WHERE IT IS! DO YA, MOM?  
HMM, COON-SKIN COAT—COON-SKIN—  
DO YA?

### SIDE GLANCES

By Gailbraith

"Don't tell your father what we paid for these steaks—we don't want to hear that speech again about them being tougher than the 20-cent steaks his mother used to buy!"

### OUR BOARDING HOUSE

with MAJOR HOOPLE

YOU DON'T RETAIN VERY WELL, JAKE! EVERY TIME YOU CHARGE IN ON US, I HAVE TO EXPLAIN THE GENERAL IDEA OF A BOARDING HOUSE ALL OVER AGAIN! IT'S A BUSINESS, OPERATED ON A PROFIT BASIS, NOT QUITE LIKE AN ORPHAN'S HOME!  
SURE, MARTHA! I GRAB A GENTLE HINT EASY—I'LL LAY THE MOOLA ON THE LINE SOON'S I KIN START PLYIN' MY TRADE! IN THE MEANTIME, HERE'S A CUNNING LITTLE COLLECTION O' FANCY HOTEL SOAP I PICKED UP IN MY TRAVELS!

WHAT'S YOUR LINE THIS YEAR, JAKE—TIGER FAT FOR FLAT FEET?

## Gas Death Certain For Child Slayer

Los Angeles, Jan. 21 (AP)—Fred Stroble is sane and must die for murdering six-year-old Linda Giucotti.

Superior Judge Charles W. Fricke who ruled him sane yesterday, will pronounce sentence next Friday. Under California law it will have to be death in the gas chamber because the jury convicted him of first degree murder with no recommendation of leniency.

The question now for the 68-year-old grandfather is when he will meet his end. The law also provides for automatic review of a death sentence by the State Supreme Court, which sometimes takes several months.

Stroble's defense counsel abandoned the attempt to argue his plea of insanity as a sixth day trial, three court-appointed doctors and two defense psychiatrists had ruled Stroble was sane when he killed little Linda, playmate of his granddaughter.

Stroble's trial included a tense reading and recording playback of his confession of the sex slaying. He admitted enticing the girl into a bedroom, strangling, beating and stabbing her to death last November 14.

## Trends in a Community Govern House Values

In buying a house, or building one, the prospective owner should decide whether it is "too good" for the community as a whole and not restrict observations to the immediate neighborhood.

If the price is high in relation to trends, the maintenance of value will be questionable because of constant adjustment to the character of the neighborhood to a lower community level. Depreciation may be quite rapid where an attractive neighborhood is small in ratio to a large community of lower standards.

## First Floor Room

A first-floor room which can be converted quickly into a bedroom when a member of the family is ill should not be overlooked in home planning, says the Construction Research Bureau, New York clearing house for building information. Equipped with television, a desk, bookshelves and sofa bed, the room will serve normally as a study and television room but will be ready for instant use in case of illness. This will eliminate state climbing necessary when the sickroom is on the second floor.

## Radiator Valves

If radiators do not heat all the way across there probably is a restriction in the air valve. Take it off and blow through it. If this does not remedy the condition, get a new valve.

Absolute zero on the Centigrade scale is minus 273.15 degrees.

## Weather Stripping Cuts Heating Cost

With winter just around the corner the time is appropriate for a checkup of windows and doors for possible cracks, and, if necessary, the application of weather stripping to cut down the heat lost through these openings.

A well-constructed house should have every crack around the door and window frames sealed against leakage. In masonry homes, this precaution should also be supplemented by caulking at the outside edges of all frames. Caulking looks like putty and is a special compound which swells when dry to fit tightly against the edges of each crack.

The inner edges of the windows and doors should be weatherstripped. To do this, strips of metal should be applied around the openings so that, when the doors and windows are shut, the edges interlock with themselves. Felt is frequently used but it is not as effective as metal. It is estimated that weather stripping cuts fuel costs from 10 to 20 percent.

## Plumbers Urge Need For Individual Valves

When installing new plumbing or extending an old system, plumbers advise home owners to make sure that a valve is included to control the water supply to each piece of equipment so that hot water tank, sink, laundry tub, bathroom fixtures, washer, furnace boiler and other equipment can be disconnected for repair without shutting off the entire supply system.

Another recommendation is that all supply pipes be pitched toward one point and have a valve near a floor drain so that pipes can be drained easily without calling a plumber.

## Fluorescent Lighting Increasingly Popular

Lamps over dressing tables and bathroom mirrors sometimes throw out so much heat that it is uncomfortable to remain close to them for long periods, because of this, fluorescent lighting is becoming more and more in use. Fluorescent lighting is cool, permitting a higher level of illumination without a corresponding rise in temperature.

## Causes of Fires

Of the 300,000 fires which occur in American homes each year, the greatest number are due to the following causes: Defective heating equipment, rubbish, careless smoking habits, faulty electrical wiring in home and appliances, needless handling of matches, and sparks on combustible roofs. Common sense precautions, such as the use of fireproof roofing materials, would materially reduce these losses, safety officials assert.

## 5-Room Homes Lead Loan List

And Four-Fifths of Them Are Accompanied by Garages

Almost half of the new homes accepted for Federal Housing Administration insurance were five-room homes, it is shown in a report of FHA activities for the year.

Other interesting construction trends, revealed in the report were:

Four out of five new homes acquiring FHA-insured mortgage had garages.

Three in 10 properties had garages of two or more car capacity.

More than nine-tenths of the new homes contained four to six rooms, and less than one percent had more than eight rooms.

Average Cost \$5530

The average new single-family home accepted for insurance was valued at \$5530 and was built on land valued at \$785.

On two-fifths of the new homes wood was used as the material of exterior construction.

Brick homes accounted for three-tenths of the new homes total, most of which were brick veneer.

Stucco, singly or in its several combinations, constituted the third most important exterior material with a total of one-fifth of all new homes.

## Plan Fireplace Repairs Early

Warm weather is the time for the home owner to consider his fireplace, even though the temperature may lessen his interest in anything that creates more heat.

Late spring and summer, when the fireplace is not being used, are excellent times to correct any faults. If a fireplace smokes consistently, it should be examined. Unless there is a hill or clump of trees higher than the chimney causing a down draft when the wind approaches from that direction, the situation can be remedied.

Some of the causes of a smoking fireplace are a flue that is too small, one that has not been started directly over the center of the fireplace, or one that contains sharp turns clogged with lumps of mortar. Other possible causes are too high an opening, no smoke shelf, an inadequate smoke chamber, a damper that does not fit the opening of a chimney not high enough to clear the top roof ridge.

## Walk Construction

Walks and driveways should be built to take punishment from cars, heavy yard tools and winter frosts and should have no low spots to collect water. For best results, the foundation should be a well-tamped gravel or cinder fill 6" thick.

## Questions - Answers

### Chimney Cracking

Q. The chimney on my house is covered with a layer of cement conforming to the rest of the house. However, on the chimney the cement is cracking and falling off, exposing some of the brick, which appear to be soft and crumbling. How should this be repaired? I have had several bids, but no two agree as to how the work should be done.

A. Only inspection will bring out the facts. If bricks are exceedingly soft, mortar will not adhere to them. In such cases the brick can be covered with metal lath previous to re-stuccoing. Differences in price are bound to occur excepting where the bidding is on fixed specifications. In the absence of a specification we suggest employment of the best plasterer available, who would be engaged on a guarantee basis to do this work.

### Closet Provision

A. What closets are considered necessary in a well-planned house? A closet located near the front entrance, a linen closet close to the bathroom, a closet for cleaning equipment, and at least one closet for each bedroom should be the minimum in a house. In large bedrooms, two closets are desirable, and it is often advisable to provide additional room for luggage, sporting equipment, and storage of seasonal articles.

### Cleaning Kitchen Fan

The kitchen ventilating fan must be cleaned at frequent intervals to prevent accumulations of grease impairing its efficiency. The easiest method, suggested by the U. S. Department of Agriculture, is to disconnect the current and wipe the fan and walls around it with a cloth wrung out in kerosene.

## This Cape Cod Cottage Grows in Three Stages

### 'The Craigville' Is a Practical Answer to High Costs

Rhode Islanders who have visited Cape Cod are familiar with the charming style of home for which this section of New England is noted. A study of many of these houses shows that they have been built through the years, bit by bit, extra rooms being added as needed.

In the face of today's high building costs, houses designed with such future additions in mind are particularly practical. Such a house is "The Craigville," today's design from the Home of the Week Plan Service which definitely smacks of old Cape Cod.

### Main House Stage 1

This low-built cottage with its extra large chimney, shuttered and flower-boxed windows and singed sidewalks is an expandable house which could be built in three stages. The main house, comprising living room, bath and kitchen, could be built as Stage 1 and, with one of the modern davenport which can be converted into a bed, would provide a couple with complete living accommodations.

Stage 2 would consist of the addition of either of the bedroom wings, on the side or rear of the house. Stage 3 would be the construction of the second bedroom and possibly the porch on the rear of the house. At the start, this plan could be simple, concrete-paved terrace, accessible from the living room through a French door.

If this three-stage plan of construction is to be followed, certain changes in the floor plan will be necessary. The doors to the two bedrooms would be windows in Stage 1, easily removed later and changed to doorways when the bedrooms are added. Too, the door to the closet of the rear bedroom in a Stage 1 plan would be placed on the opposite side, opening from the bathroom. Also, the present coat closet off the living room would have to wait until the bedroom wing is added.

### Takes 50-Foot Lot

The main portion of "The Craigville" measures 25'8" x 21'5" feet. If only the rear bedroom is to be added, the house could be located on a lot with a 40-foot frontage. Even with both bedroom wings, "The Craigville" could easily go on a 50-foot lot. Cubage of the main house is 11,000 feet. The two bedroom wings will increase this total to 15,000 cubic feet.

The front door opens directly into the 20x13-1/4-foot living room where a large fireplace is centered in the long inside wall between doors to the kitchen and a small hall off the bathroom. The front door and a window are balanced by the French door and window on the rear of the house, across the room. Two windows on the side complete the cross lighting and ventilation.

The architect suggests that the living room fireplace be equipped with a heat circulating device, which would warm the entire house during the fall and spring, thus reducing heating expense.

### Kitchen 11x11 Feet

The kitchen, measuring 11x11 feet, has space under the window to accommodate a breakfast set. The rest of the wall space is filled with refrigerator, stove and two work counters with wall cabinets above. A broom closet is placed behind the stove, just inside the

door from the living room.

A small hall off the kitchen serves as a landing for the cellar stairway. The cellar under the main house would have the heating plant under the kitchen and laundry equipment under the bathroom. This would leave space under the living room for a large recreation room, if desired.

There is a linen closet in the hall outside the bathroom door. The bedroom wings measure 11'1/2" x 11' and 11'1/2" x 10'1/2" feet respectively. Each bedroom has two windows.

Complete insulation is recommended for a house of this type. A location facing south to southeast is also recommended.

Complete plans and specifications for this "Home of the Week," or any other design of this series, are available at moderate cost. To ascertain the exact price of these documents, write to the Home Building Editor, and enclose a self-addressed envelope bearing a 3-cent stamp. At least one week should be allowed for a reply.

## Lighting System Requires Check

Careful check should be made of the light and power equipment in a new home or in modernizing an existing house.

In the case of old dwellings, such a check is doubly recommended. The original installations may have become worn or damaged. The services of a competent electrician should be employed to avoid mistakes which might prove costly and hazardous.

## Ferraro Drops Bowling Price

A reduction in bowling price of 10 cents per game for afternoon bowling up to 6 p. m., was announced today by Johnny Ferraro of the Bowldrome lanes on Cornell street.

The new price policy will prevail on weekdays from Monday through Friday. The regular fee will prevail after 6 p. m., and all day Saturday and Sunday.

The Bowldrome becomes the second bowling alley establishment in the city to deviate from the standard fee that was a wartime product. Varying afternoon fees prevail at virtually all establishments in the mid-Hudson area but the basic night rate prevails.

## Ike-Robinson Bout in Making

### Lightweight Champ Stops Bratton

Chicago, Jan. 21 (AP)—A welterweight championship showdown between Ike Williams, lightweight king, and Sugar Ray Robinson, the 147 pound titleholder, is in the making for Chicago stadium this spring.

James D. Norris, president of the International Boxing Club, said he will "make every effort" to sign the two.

Norris' decision came after the I.B.C.'s most successful venture in Chicago stadium since the club took over stadium boxing shows last October. A crowd of 11,335 paid \$44,072.32 last night to watch Johnny "Honeyboy" Bratton of Chicago enter the ring against Buzz Scazz Williams. They got their money's worth.

Williams, scaling 143 pounds to Bratton's 146, moved into contention with a smashing technical knockout of the Chicagoan in the eighth round of a scheduled ten. It was the third time Williams had defeated Bratton.

Bratton quit suddenly while absorbing a beating in the face. He held his jaw, the same one Benji Jack broke in the eighth round in a Chicago stadium bout two years ago. Bratton motioned to Referee Norm McGarthy that his jaw may have been fractured and then walked to his corner.

Dr. R. R. Hinchon, examining physician for the Illinois State Athletic Commission, said after a preliminary examination that the fighter's left lower jaw may have been fractured. Bratton was taken to a hospital, treated and released. X-rays were to be taken today.

**Darkhorse Faces Long Beach Open**  
Long Beach, Calif., Jan. 21 (AP)—Sam Snead and the more famous members of golf's touring pros set out today to overhaul the proverbial darkhorse as the \$10,000 Long Beach Open entered the second round of play.

Facing the pack is little known Jack Harden of El Paso, Tex., who made nine strokes off par for a 62 yesterday over the Lakewood Country Club course with its lake-dotted par 36-35-71. His 31-31 performances equaled the competitive tournament marks in the PGA shared by such great stars as Ben Hogan, Byron Nelson and Lawson Little. It broke all course records and sent him flying into today's round three shots ahead of his nearest rival.

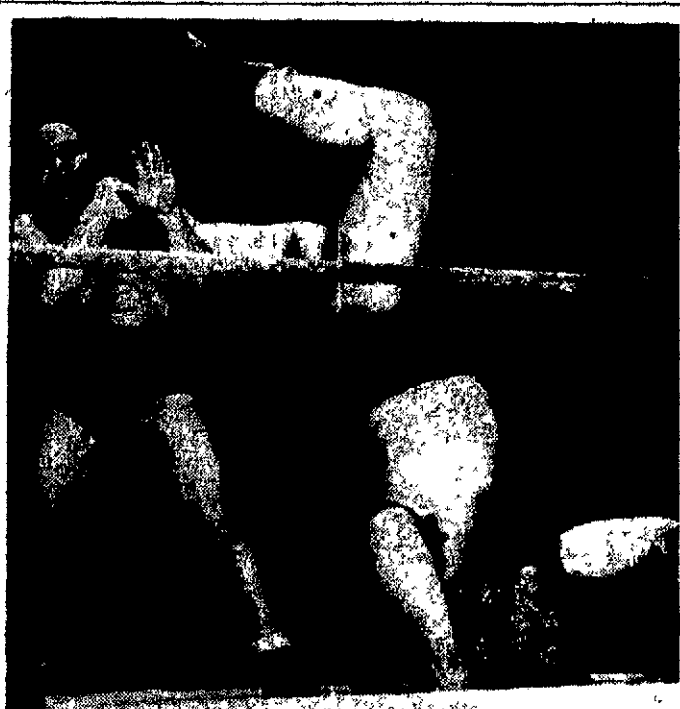

The 35-year-old Texan plays little tournament golf, being the club pro in his home town. He admittedly faced a huge task holding off the field today.

**Angels Score Over Accord Five, 49-41**  
Harry's Angels rolled up an early lead to defeat a hard fighting Accord quintet, 49-41, in an exhibition game last night on the Y court. The Recreation Leaguers were ahead 33-18 at halftime but were outscored 16-23 after the recess.

Eric Goerke scored 14 points and Wade Dunham had 14 for the Angels. MacCallie paced Accord with 14 points, while G. Buttonbaum and Pugliese shared 21. The score: Harry's Angels (40)—Dunham 14, Goerke 13, Petrucci 4, Kearney 3, Kaman 6, Shaughnessy 4. Accord (41)—G. Buttonbaum 11, Greene 1, Wustroff 2, F. Buttonbaum 1, McCaville 3, Proper 3, Pugliese 10, Mikalinos 3, Wideltz 4.

**Just Bowling Along:**  
The better-than-100 entry list for the 14th annual city championships sponsored by the Kingston Bowling Association insures success of the tournament and reflects the generous effort put forth by Pete Keresman and his workers committee. Everything considered it represents a fine showing and guarantees a good tournament.

**Flotsam and Jetsam:**  
Three times in the last year opposing Hudson Valley squads have resorted to the gimmick in an effort to defeat Adirondack Trailways (ex-Hot Lister-Jones Dubs) in intra-city matches. This ancient psychological sports ruse has fallen flat three times running, the Trailways winning seven out of nine games.

You may ask, what is a gimmick? Briefly, it consists of importing for a specific match a hopped-up bowler (no narcotics intended) who has a grudge against the team involved, imaginary or real. The theory contends that such an inspired trundler will rise to great heights against the hated enemy. More than often he falls flatter than yesterday's pancake batter.

**The Miron-Trailway Deal:**  
The most recent example of such shenanigans involved the Trailways and Miron Lumber. And more specifically, John MacLellan, the Highland bowler-commentator.

According to our information, Mac took a walk from the Miron roster after losing a few early season games because of Captain Charlie Manfro's policy of dropping the low man in each game, or starting the highest man of the previous week. We can concede Mac a point there. Captain Manfro is a stern realist who judges bowlers harshly on their up-to-the-minute performances. He is not concerned with 190 averages in last year's scrapbook.

But Captain Manfro's system does have a glaring weakness and Mac bobbed up very much alive in a Miron uniform. Since he is based on the ancient custom of nightmarish importation, the Miron captain is making a gallant attempt to insert in the Lumbermen's lineup every available "name" bowler in the city. Time is running against the swarthy pilot but his campaign in behalf of this lofty purpose is to be commended, especially by those who like to judge bowling on its quantity and not quality.

**How Many Men Make Five:**  
Getting back to Mac, such overworking of the bench every Sunday caused him great discomfort and ran counter to his conception of how a bowling team should be operated. So he departed and Charlie stepped elsewhere for new talent.

Along came the intra-city duel between Miron's and the Trailways and Mac bobbed up very much alive in a Miron uniform. Since he is based on the ancient custom of nightmarish importation, the Miron captain is making a gallant attempt to insert in the Lumbermen's lineup every available "name" bowler in the city. Time is running against the swarthy pilot but his campaign in behalf of this lofty purpose is to be commended, especially by those who like to judge bowling on its quantity and not quality.

**Why All the Needling?**  
For the past several weeks, MacLellan has been amusing his listeners with tirades against the Trailways. It is not a curious coincidence to members of the squad that MacLellan's sudden change of attitude toward the Trailways dovetailed with a notable event. He sought to justify his needling activity to more nearly approach their would put them to greater activity to more nearly approach their potentialities. He expressed grave concern about the future of sponsorships in Kingston. But he needn't be concerned about the Trailways. There will be a 1950-51 Trailway squad, make no mistake about that.

He played funeral marches for the team. Was he kidding? Maybe. He once attributed a Trailway victory to the absence of the captain, who happened to be speaking at a local golf function.

**Who Is Kidding Whom?**  
To a man the members of the Trailway squad—John Ferraro, John Schell, Larry Weinhaupt, Harold Broskie, Fred Rice and yours truly—concede Mac's right to criticize. But let's not kid each other. We may be bowling lousy but to a man we also feel that there is nothing wrong with the relations between Mac and "the boys" that a spot on the Trailway team for Mac couldn't cure. And we're not kidding.

**Pocket Billiard Play To Start on Monday**  
A field of eight entrants, including defending champion Dave Brooks, awaits the opening of the annual city pocket billiard championship tournament at the Kaschell Parlor on Monday, Jan. 23.

Three newcomers and five veterans comprise one of the strongest entry lists in recent years. Dave Brooks and Frank Schilling have been paired for the opening night match which starts at 7:30 p. m. Matches will be carded weekly on Monday, Tuesday, Thursday and Friday.

Admission to all matches is free and Nick Kaschell, tournament promoter, extends an invitation to the public.

The first week's schedule: Monday, Jan. 23—Dave Brooks vs. Frank Schilling. Tuesday, Jan. 24—C. N. Massa vs. Pete Savatky. Thursday, Jan. 26—Jules Teller vs. Claude Markle.

## Yanks Plan Day For Ed Barrow

New York, Jan. 21 (AP)—Edward G. Barrow, former president and general manager of the New York baseball Yankees, will be guest of honor at the Yankees' annual Oldtimers Day at the stadium on May 13, the club announced today.

Barrow, under whose regime the Yankees won 14 American League championships and 10 World Series, will be 82 on May 10. He is living in retirement at Rye, N. Y.

At least one representative from each of the Barrow-led championship clubs will be invited to attend the event and play in an old-timers game against representatives of each of the 14 National League teams. The Yanks met in the World Series.

As an added touch, the Yankees will invite Honus Wagner to attend and assist in honoring the man who discovered him in the bushes and started him on the road to fame as the greatest shortstop the game has known.

Connie Mack, veteran head of the Philadelphia Athletics, was honored at last year's oldtimers festivities.

**Morrissey Paces Connelly to Win**  
Tom Morrissey Jr. tossed in 10 points to pace Connelly to a 34-27 victory over the Stone Ridge Royals today—Pitcher Allie Reynolds and Catcher Yogi Berra.

Both baseball players visited Yankee headquarters to talk salary terms but left without signing. The club said they wanted a "little more money."

The terms offered Reynolds and Berra were not disclosed.

Arthur Patterson, Yankee publicity man, said Joe Page, ace relief pitcher, is scheduled for a contract talk today.

Page earned about \$20,000 last season but is said to want to jump to \$35,000.

## LAST NIGHT'S RESULTS

Kingston High 35, Liberty 31.  
Monticello 52, Middletown 38.  
Newburgh Academy 52, Port Jervis 32.  
Fallsburg Central (bye).

The form sheet was fool proof in the DUSO Basketball League's hectic first round squabble last night when the three contenders—Kingston, Newburgh and Monticello—rolled to impressive victories to wind up first half play in a triple deadlock.

The victories were achieved via contrasting formats as Kingston High was in command all the way to topple Liberty 35-31, while Newburgh and Monticello resorted to explosive fourth quarter drives to humble Port Jervis and Middletown.

Newburgh rolled up 26 points in the final quarter to trounce Port Jervis, 52-32, while Monticello reared up with 22 in the home stretch against the Middies for a 52-38 conquest on the mountain boards.

Details concerning the first round playoff will be announced later by DUSO officials.

## HALF-CENTURY HIGHLIGHTS

"WILD WEST SHOW" was a phrase to thrill every youngster of the early 1900's. Their hero was the old Indian fighter, Buffalo Bill, originator of the Wild West show. By the turn of the century, his once-little group of cowboys and Indians had grown into a tremendous spectacle called "Buffalo Bill's Wild West Show and International Congress of Rough Riders." The "Rough Riders" were some of Teddy Roosevelt's veterans and daredevil horsemen imported from abroad. The show toured Europe, playing many command performances before royalty. Buffalo Bill is shown here with one of his early star attractions, Sitting Bull, famous Indian chief. Despite his great successes, Buffalo Bill was improvident and died in poverty in 1917.

### State to Bar P.G. Athletes

Albany, N. Y., Jan. 20 (AP)—The Board of Regents announced today that post-graduate high school students would be barred from interscholastic sports events after Sept. 1, 1951.

The Regents said the new regulation was "aimed at extending athletic opportunities from the few to many."

New York is the only state in which post-graduate students are eligible for varsity competition. Some localities in the state already prohibit the practice.

Present regulations permit graduates who have not reached their 19th birthday by Aug. 31 to compete during the scholastic year beginning the following Sept. 1.

Under the new rule adopted at a Regents' meeting today, a pupil will be eligible for interscholastic competition only during the eight consecutive semesters after he starts the ninth grade.

**Mailman's Dog Friend Killed Friday by Car**  
Ginger, the well-known dog that accompanied Mailman Arnold F. Tierney on his uptown rounds, is dead.

John Crosby of 10 Linderman avenue reported to police at 7:06 p. m. Friday that Ginger darted out in front of his automobile on Washington avenue near Main street. The dog was struck and killed by the vehicle's wheel before Crosby was able to stop, he told police.

Ginger was owned by Mrs. John Edwards of 188 Main street, police said. Every day, morning and afternoon, he used to wait at the beginning of Tierney's route and would accompany Tierney over his territory.

**Charges Dismissed**  
Reckless driving charges against Theresa Caffrell, 45, of Highland, were dismissed by City Judge Raymond M. Mino this morning. Miss Caffrell was the driver of a vehicle which collided with an automobile operated by Mrs. Gertrude K. Elwyn of Sunset Park at the intersection of Main and Fair streets on January 6, police said.

### Ex-Atomic Boss Is Named Head Of Civil Defense

Washington, Jan. 21 (AP)—A former atomic research official was named today to head the government agency charged with planning for wartime civil defense.

Paul J. Larsen, who has been associated with atomic research in Los Alamos and Albuquerque, N. M., will take over as first chairman of the Civilian Mobilization Office on March 1, Presidential Assistant John R. Steelman announced.

The office was set up as one of eight planning groups in a recent reorganization of the National Security Resources Board, which Steelman has been running as acting chairman.

Larsen's appointment was announced on the heels of a Defense Department disclosure that recruiting of 150,000 volunteer aircraft observers will start immediately to be ready for action if war should come.

The two announcements marked a sudden surge of action in the civil defense program, which has been dormant since the war.

Larsen will supervise planning for civil defense, health resources, housing and community services, strategic dispersion of industrial and governmental facilities and censorship.

### Hiss Jurors Resume Deliberations Again

New York, Jan. 21 (AP)—The jury in the second Alger Hiss perjury trial returned to the courtroom today to have part of the judge's charge re-read to it.

In response to the request, Federal Judge Henry W. Goddard read the jury's charge for the second time those parts of the charge which referred to reasonable doubt, circumstantial evidence and corroborative evidence.

The judge told the jurors again that the government must prove beyond a reasonable doubt that Hiss lied when he denied turning over secret government documents to ex-Communist courier Whitaker Chambers.

Reasonable doubt, the judge said, does not mean "possible doubt or a fanciful doubt" but means "a doubt which is reasonable in view of the evidence or the lack of evidence."

The judge told the jury for a second time that the defendant does not have to prove how Chambers got the documents.

As in the first Hiss trial, the jury was deliberating for a second day with no verdict in sight. The eight women and four men resumed deliberations at 9:20 a. m., 40 minutes earlier than the time set for the judge when he sent them to bed at 10:45 o'clock last night.

police. Senator Lehman indicated somewhat similar assurances but declared he felt the police are adequately safeguarded. With this Carter disagreed.

"The bill is bad," the conference head wired Lehman, "and there can be no misunderstanding about that. HR 8090 is a dangerous entering wedge against a heretofore secure police pension plan."

Police were successful 10 years ago in being excluded from similar legislation which failed of passage and they seek the same specific exemption now, Carter said.

It is expected that the police legislative committee set up for the state will participate in the congressional controversy. The bill passed the House on the eve of adjournment last year and should it pass the Senate, it can be expected that it will receive presidential approval on the basis of recent statements from Mr. Truman urging an extension of Social Security for all.

A. J. McDonald, general manager of the Albany Knickerbocker News, was elected president of the association. He succeeds Milton R. Miller of the Batavia News.

Other officers elected: Vice-president, E. A. O'Hara, publisher of the Syracuse Herald-Journal; secretary-treasurer, Herbert W. Crickshank of Rochester, general business manager of the Gannett newspapers.

**Miners to . . .**  
ed to go back on a three-day week because:

United Mine Workers officials maintain the miners are not rebelling against Lewis, although some may not agree with his strategy of calling memorial holidays, walkouts and just plain strikes in order to bring coal operators to terms.

Since the first of the year at least one segment of the coal industry has been shut down each week by an unexplained strike. Whether it's part of Lewis' overall strategy to reduce the stockpile is anyone's guess.

**Operators' Pay Day**  
Yesterday was "pay day" for the operators who have been observing the conditions of the old contract which expired last June 30. It was the regular monthly date on which they make their 20-cent-a-ton royalty payments to the U.M.W.'s health and welfare fund.

There was a lot of conjecture that many operators hadn't paid up. Only one operator—Jones and Laughlin Steel Corporation of Pittsburgh—said the payment had been made. Other major operators simply refused to talk.

In the anthracite industry where 78,000 miners are employed, a spokesman said the operators to the hard coal health and welfare fund were made on schedule. A few hours earlier, the U.M.W. said it had been forced to suspend temporarily the disability payments to miners out of the fund. Pensions were continued, however.

### FIREMEN BATTLE TO RESCUE TRAPPED BOY

A fireman is visible (upper right) through a smoke-filled window during the height of a futile attempt to rescue Kevin Flaherty, 10, trapped in a fire which swept a three-story Boston tenement. ### 'Pepsi Cola' Bandits Held After \$12 Theft

New York, Jan. 21 (AP)—Two of three armed men were captured in a bullet-punctured chase last night 10 minutes after they allegedly robbed a grocer of \$12 in his store at 804 Jackson avenue, the Bronx.

The suspects, described by police as the "Pepsi Cola" bandits, were booked on charges of assault, robbery and violation of the Sullivan weapons law.

Luis Marti, 24, of 751 Thronton avenue, and Narmo Nivas, 19, of 690 Westchester avenue, both of the Bronx, were captured after three bandits held up Grocer Pedro Santana.

At the store all three ordered Pepsi-Colas, and after having drunk the sodas, told Santana he was being held up, police said. The identical procedure, police said, had been used in previous robberies.

The three, after failing to open the cash register, took Santana's wallet and fled, according to police, who were summoned by Santana. Two radio car patrolmen spotted the pair about two blocks away.

Marti and Nivas ran in one direction with the police in pursuit and the third man got away.

### Dewey Blames . . .

per cent of those making photographic products.

"Each of those products," he continued, "is the peaceful victim of a wartime measure aimed at its partial destruction."

The governor said that excise taxes "will be needlessly in effect on rail, bus and air transportation."

**Phone Users Pay**  
And in 1949, New Yorkers paid \$78,000,000 in excise taxes on telephone calls, Dewey reported.

"That," he said, "was more than the entire motor vehicle tax collected by the state this year."

He said that from 1946 to 1949 there was a 25 per cent drop in the number of workers employed in the fur, luggage, jewelry and cosmetic industries in the state.

C. I. O. Takes Over  
Dewey prefaced his talk by referring to Louis Hollander, president of the New York State C. I. O. Council as "the new leader of the Democratic party in New York state."

Dewey contended the C. I. O. had taken over the Democratic party and was deciding all the party's programs, including taxation.

## WOODSTOCK NEWS

By RICHARD E. THIBAUT, JR.

### Carey Honored At Annual Dinner

Woodstock, Jan. 21.—As the climax of a brilliant year of activities and events, the Masonic Square Club of Woodstock held its second annual president's dinner-dance, Thursday night at Deane's. About 150 members of the Masonic Order and their guests observed the installation of Walter Van Wagenen as the club's new president. Special tribute was paid to Leon Carey, retiring president for his outstanding achievements and organization of the committees which undertook and successfully completed the projects of the club this past year.

After the invocation by the Rev. Harvey I. Todd, chaplain, Henry Hartley, of Saugerties, president of the Ulster County Shriners Club, who served as master of ceremonies, introduced Judge John B. Sterley of Kingston, who spoke for the members as well as the entire community in his high praise of the exceptional work accomplished by Carey and his assistants during the past year. He then presented Carey with a gift of a watch on behalf of the members of the club in appreciation for his devoted service.

Presenting a review of the past year's endeavors of the club, Carey thanked his tireless cohorts who had served on the various committees for their wholehearted cooperation in all the work undertaken.

Introducing Walter Van Wagenen, the new president, Henry Hartley cited the many contributions to the life of the community Van Wagenen had already made as school principal, former president of the Woodstock Library and coach of the Woodstock basketball team.

Van Wagenen expressed his confidence "that with the help of the new committees and the enthusiasm of all the members, this year will also be one we may look back upon with the pride we look upon the year just past." He emphasized the realization of the amount of work future plans called for. He will carry on the present policy of the club in the Cub Scout and camp programs, the welfare dances, youth activities and in the plans for the Christmas party next year. He also gave credit to the newspapers for the manner in which they handled publicity.

Reporting on the aid given by the welfare committee, Milton Houss, vice president, outlined the use to which the youth welfare fund was put in 1949. He stated that under the auspices of the Masonic Square Club, boys went to camp amounted to 168 boys, and his appreciation on behalf of the club was given to Dr. Harry J. Cole for his assistance in this project. The welfare fund is also used to sponsor the Cub Scouts. The largest single sum, he reported, was given to the girls for uniforms for the girls basketball team and their expenses.

Van Wagenen later recalled that only four years ago the Masonic Square Club had been a small affair and their aim was primarily social. Today the vastly increased membership and what it has accomplished is an inspiration to the entire community.

Warren Rully was introduced and presented a scroll designed by Harry Temple from the Masonic Square Club.

**Riftenbary to Aid In Heart Campaign**  
T. Jay Riftenbary, local insurance broker of Kingston, has accepted the appointment of county chairman of the 1950 Heart Campaign to be conducted by the Heart Committee of the Ulster County Tuberculosis and Health Association, N. Jansen Fowler, chairman of the Heart Committee announced today.

The purpose of Ulster county's heart campaign is to raise funds to carry on research and an educational campaign for the prevention of the various heart diseases. This will be the first heart program and campaign in Ulster county.

"A business man with an interest in the health and welfare of his community, Riftenbary is an excellent choice for the job of our campaign for funds to fight heart disease," Fowler said.

Riftenbary said today that he was deeply honored in being given the opportunity to be of service to his community by helping the committee raise funds for heart work. He further stated that heart and blood vessel diseases constitute our most important medical and public health problem and that it affects more persons than any other disease.

Riftenbary also reported that chairmen are now being appointed in every township of Ulster county to carry on the campaign. Plastic hearts will be placed at various points in each community and contributions will be accepted during the drive which opens Feb. 1 and continues until Feb. 28.

**Rural Roads Are**  
jeopardy when the school buses are forced to travel one-way roads with sharp curves.

Bruce W. Dennen, of Grahamsville, N. Y., supervisor of the Neversink township, described some of the back roads as relics of the days of the covered wagons.

"The conference was called to consider the method of fund allocation for rural roads under a proposed congressional act authorizing \$108,000,000 annually."

**Rail Official Dies**  
Montreal, Jan. 21 (AP)—Norman B. Walton, 65, executive vice-president of Canadian National Railways, died today after 50 years' service with the railway.

### Regents Is Silent On Official View Of Feinberg Law

Albany, N. Y., Jan. 21 (AP)—The Board of Regents kept the state's legal pundits guessing today as to its official stand on the constitutionality of the bitterly contested Feinberg Anti-Communist Teacher Law.

The Regents, in a letter to the attorney general yesterday, urged the state to press "with all possible dispatch" its appeal from a State Supreme Court justice's decision that branded the law unconstitutional.

But the board, reportedly split over the question of constitutionality, did not indicate its official view on the law.

In releasing the Regents' letter, Attorney General Nathaniel L. Goldstein also distributed copies of telegrams received from six Regents in reply to a request he had made for "support and cooperation."

Goldstein represents the Regents in the constitutional fight now before the Appellate Division here. A decision is expected late this month.

He recently implied that the state's battle had been jeopardized in published statements by Regents Chancellor William J. Wallin. Wallin lauded the opinion handed down by Justice Harry E. Scheraga when he held the Feinberg law was invalid. Wallin refrained from commenting on the decision itself.

At that time Goldstein asked the other 12 Regents for an expression of their views.

Regent Wesley V. Moot of Buffalo then wrote Goldstein that he believed "every member of the Board of Regents sincerely believes in the basic purpose of the Feinberg law."

The measure, passed by the 1949 Legislature, directs the board to compile a list of organizations it deems subversive and to make certain members of such groups are not employed in public schools. A preamble to the law hits directly at the Communists.

The Regents' letter to Goldstein yesterday said:

"The Board of Regents . . . is unanimously of opinion that an effort to uphold the constitutionality of the Feinberg law on subversive activities is most desirable . . ."

In the telegrams released by Goldstein, two of the Regents said they agreed with Moot's letter. They were Regents George H. Bond and John F. Brownan.

Regents Charles E. Himmelman and Jacob S. Halperman told Goldstein they supported the state's efforts to uphold the law's constitutionality.

Himmelman declared: "Regardless of their personal views as to the wisdom of the legislation, you are entitled to have, and I am sure you do have, the support of all the Regents in your efforts to uphold the constitutionality of the Feinberg law and all other acts of the legislature relating to education."

**Club Plans Party**  
Woodstock, Jan. 21.—A public card and game party will be held at the Zena Country Club Tuesday, January 24, at 8:15 p. m. The committee in charge will be Mrs. Fred Thalz, Jr., and Mrs. Edwin Holmzer.

**Two Persons Injured When Autos Collide**  
Two persons were slightly injured in an automobile collision at the intersection of Smith avenue and Elmendorf street about 8:40 p. m. Friday, police reported.

Patrolman Charles Hoehing and Special Patrolman Edward Kowalski, who investigated, said Shirley Fairbairn, 25, All by one International, received a large bruise above the hairline, and Mrs. Beulah M. Beatty, of Rifton, sustained a bump on her head. Neither woman asked for medical attention at the time the officers made their report, police said.

Miss Fairbairn was driving an automobile west on Elmendorf street when it collided with another vehicle driven by Carl C. Beatty, husband of Mrs. Beulah Beatty, police said. Also riding in the Beatty car were four children of Mr. and Mrs. Beatty: Robert, 15; Donald, 12; Richard, 4; and Gail, 2, police said. None of the children reported injuries.

The vehicles were considerably damaged, police said. Following the collision, the vehicle driven by Miss Fairbairn ran up over the curb between 98 and 100 Elmendorf street and onto the lawn, but caused no apparent property damage, police said.

**Old Faces In Library**  
Oxford, England, (AP)—Curators of the world famous Bodleian Library at Oxford University are slowly unrolling 200 faces that had been forgotten. The faces—of English scholars antedating the middle of the 17th century—were painted into a frieze decorating one room of the building in 1618.

When the ceiling was repaired in 1831, this frieze was covered with plaster. Last summer it was rediscovered. Its restoration is now under way.

**Reconsideration Asked**  
Seoul, Korea, Jan. 21 (AP)—The Korean National Assembly today voted to ask for reconsideration of a Korean aid bill which was narrowly rejected Thursday by the U. S. House of Representatives.

Christmas Island in the Pacific was so named because the explorer, James Cook, discovered it on Christmas Day, 1777.

In 1835 a French chemist, C. Thénard, produced solid carbon dioxide, the "dry ice" of today.

## Pette Named Justice Of State Supreme Court

Albany, N. Y., Jan. 21 (AP)—Justice Nicholas M. Pette of New York City's Municipal Court today was appointed a justice of the state Supreme Court by Governor Dewey.

Pette was nominated to the state Senate for expected confirmation.

Pette, 56, will fill a vacancy caused by the resignation of Justice Charles W. Frossell of Jamaica. Frossell was elected an associate justice of the state Court of Appeals last November.

Pette will serve until next Dec. 31. He is expected to be the Republican candidate for a full 14-year term in the fall election.

The salary is \$18,000 a year. Pette was elected justice of the Municipal Court for the Eastern District of Queens in 1937 for a 10-year term and

was reelected in 1941. He received endorsement by the Republicans and Democrats each time.

He was a member of the state Assembly from 1920 to 1921. He has been an assistant district attorney in Queens county and a U. S. commissioner for the eastern district of New York.

In World War I, Pette served overseas as a lieutenant in the U. S. Army intelligence service. He was admitted to the state bar in 1916.

## Want Unit to Find Jobs For People over 45

Albany, Jan. 21 (AP)—Two Republican legislators proposed today that the state set up "task forces" to find jobs for "older" persons.

Senator Thomas C. Desmond of Newburgh and Assemblyman William M. Stuart of Canisteo said they would introduce a bill Monday to establish in the state employment service, a special unit for job applicants over 45.

They declared that unless the state and local communities made a determined effort to find jobs for older persons, cost of old age assistance would soar to "dangerous heights."

Senator William M. Conrad and Assemblyman William E. Clancy, both Ridgeview Democrats, said they would introduce a bill to provide for "safe driver" tags.

All drivers would get the tags at the start. If a driver violated safety rules to be drawn up by the motor vehicle commissioner, the tag would be taken away.

## BAKED BEANS WITH NEW FLAVOR

By GAYNOR MADDOX

NEA Staff Writer

Dried beans, plentiful now, are a low cost source of protein. Give them to the family often, but try this different way of cooking them:

Home Baked Beans (8 servings)

Two cups pea beans, 1/2 teaspoon baking soda, 1/2 pound salt pork, 1 small onion, 2 teaspoons salt, 1/2 teaspoon dry mustard, 1/2 teaspoon pepper, 1/2 cup brown sugar, one 8-ounce can tomato sauce, 1 1/2 cups (12 ounces) beer or water.

Pick over beans; wash. Soak overnight in cold water to cover. Drain; cover with fresh cold water; add soda; simmer, covered, until tender. Drain; rinse with cold water. Soak pork with hot water, water, salt and pepper; cut through fat at 1/2-inch intervals, making cuts 1 inch deep.

Put onion in 2-quart bean pot or casserole. Add beans. Bury

MONDAY'S MENU

BREAKFAST: Stewed prunes, ready-to-eat cereal, corn bread, butter or fortified margarine, syrup, coffee, milk.

LUNCHEON: Home baked beans, brown bread, butter, or fortified margarine, Waldorf salad, fruit bowl, tea, milk.

DINNER: Cold sliced ham, noodle cheese ring, buttered kale, rye bread, butter or fortified margarine, raw carrot sticks, celery, apple pie, coffee, milk.

SLEEPER TAKES COAL

Passaic, N. J., Jan. 21 (AP)—Kurt Wehrmann couldn't quite figure out why he was using up his coal supply so fast. He took his puzzle to police yesterday.

They found that a man who had been sleeping in Wehrmann's coal bin with his permission, has been carrying away the coal, a pall at a time, over the period of several weeks.

Not Lost Bags

Troy, N. Y., Jan. 21 (AP)—Two mysterious men, transferring "bags" from one automobile to another, looked as though they might have that \$1,500,000 stolen in Boston Tuesday. A bystander telephoned this report yesterday from nearby Wymanskill to state police here. Troopers sped to the scene. They found two salesmen with vacuum cleaner bags.

The character "Frankenstein" was created by Mary Shelley in 1818.

## RECALL DEMANDED

Recall of Donald R. Heath (above), U. S. minister to Sofia, was demanded, Jan. 19, by the Bulgarian government. A formal break in diplomatic relations between the United States and Bulgaria was reported imminent.

## Girl Faces Life On Murder Charge

Brady, Tex., Jan. 21 (AP)—Sandra Peterson, the girl who says she can't remember whether she killed a man, faces life in prison.

A criminal district court jury last night found her guilty of murder with malice and fixed this sentence.

The 18-year-old Somerville, Mass., girl heard the verdict without emotion.

"No," she said wearily when asked if she still did not remember events in which Lewis Patterson, 34, was shot and killed, "I don't remember."

The jury of farmers and ranchers deliberated five hours and ten minutes. Their verdict ended a sensational trial in which the prosecution's star witness testified that it was she—not Sandra—who held the gun from which the fatal shots were fired.

The girl who made this dramatic courtroom statement—Loretta Mae Mozingo, 15-year-old juvenile delinquent from Austin, Tex.—yesterday was found moaning and gasping in her jail cell, a gas stove hose two inches from her face.

Sheriff A. B. Willborn, who found the girl, said the apparent suicide attempt was only "play acting." But he admitted that the gas was on.

The Mozingo, girl, Sandra's hitchhiking companion, testified that she had held the gun; that Sandra was under the influence of marijuana on Aug. 25, the day the Brady real estate man was slain, and that she told the young married defendant that it was she—Sandra Peterson—who had shot and killed Patterson.

Loretta Mae said she did this because Sandra "didn't know what she was doing."

## Vets Are Warned to Watch Schemes for Dividend Pay

Real property purchased with the special dividend now being paid by the Federal Government on National Service Life Insurance is entitled to exemption from taxation, Leo V. Lanning, director of the State Division of Veterans' Affairs, announced today as he warned veterans to "beware of get-rich-quick schemes."

"Past experience shows that every time our veterans receive a bonus, pension or other mass payment from a grateful government, they are besieged with get-rich-quick schemes from unscrupulous sources," Mr. Lanning said. "It is earnestly hoped that our veterans consider their needs carefully, and that if they decide to spend this money, they do so judiciously and constructively."

The State Board of Equalization and Assessment recently ruled that this special N.S.L.I. dividend comes within the scope of Paragraph 5 of Section 4 of the State Tax Law which provides for the exemption of " . . . real property purchased with the proceeds of a pension, bonus or insurance granted by the United States or by this state for military or naval services, and owned by the person who rendered such services, or by his wife or widow, or dependent father, mother, or by his minor children."

Director Lanning suggested that veterans seeking the exemption contact their local Veterans' Service Agency or New York State Division of Veterans' Affairs Counseling Center for further advice.

## Octopus Has Loot

Isle of Capri, Italy, Jan. 21 (AP)—An octopus caught by fisherman Giuseppe Ruggero today was an odd fish. It had a silver fork and spoon in its tentacles. Ruggero marked his catch with a buoy and told police about it. Police discovered that the fork and spoon were part of the loot in December 14 burglary of a Capri villa. But still missing was a box of jewels, the bulk of the \$50,000 theft.

**Bank Has "Moving Day"**  
New York, Jan. 21 (AP)—Carts bearing millions of dollars in cash, securities and jewelry trundled along a New York sidewalk last night as more than 50 armed guards supervised the moving of a bank. The Fifty-first street branch of the National City Bank moved lock, stock and stacks of cash about 100 feet down the block to its new location in the Crowell Collier building on the corner of Fifth avenue.

## C.I.O. Asks State To Control Rents; Outlines Program

Albany, N. Y., Jan. 21 (AP)—The State C.I.O. pressed the legislature today for immediate state control of rents.

The labor organization, which claims more than 1,000,000 members, also asked the lawmakers to:

1. Set a minimum wage of \$1 an hour in the state.
2. Repeal the Feinberg anti-Communist law.
3. Increase unemployment insurance and sickness disability benefits.

The program was announced last night by Louis Hollander, state C.I.O. president.

The C.I.O. declared the state should revise its standby rent control law to make it effective at once, and roll back any increases already granted under the 1949 federal law. The state's law, as written, can become effective only after all federal controls cease.

The C.I.O. said federal controls had been "seriously weakened, in spite of the continuing housing shortage."

Other C.I.O. proposals included: Establishment of rehabilitation camps for workers, to speed recovery from injuries.

Full enforcement of anti-discrimination laws, and prohibition of discrimination in housing projects that receive any form of public assistance.

State supplements to federal Old Age Insurance benefits to bring the total to \$100 a month per person.

Enough state aid to education to provide "needed" schools and pay raises for teachers. The exact amount of school aid recommended would be determined by a C.I.O. committee now studying the subject, Hollander said.

Repeal of the Condon-Wadlin Law, which provides automatic dismissal for public employees who strike.

Establishment of grievance machinery for public workers.

Hollander said the C.I.O. also would propose special legislation

## Will Use Beaching Gear on Missouri

Norfolk, Va., Jan. 21 (AP)—The navy plans to use heavy beaching gear on the next attempt to tug the Missouri, the nation's only active battleship, off a Chesapeake Bay shoal. In Washington, navy officials announced plans for an investigation and a naval court of inquiry on how and why the "Big Mo" ran aground.

The navy will make the next try at freeing the ship on Feb. 2. Failing in three attempts to haul the battleship free with a fleet of tugs, salvage officers dug deeper into their bag of tricks today and came up with the announcement that heavy beaching gear will be used. This is how it works:

Ten or 12 four-ton anchors will be placed 1,000 yards astern of the battleship. Each anchor, its cable drawn tiddle-tight from the immobile Missouri, will exert a pulling force of 80 tons, a naval spokesman explained.

Thus, a pulling force of some 800 tons will be exerted on the 45,000-ton warship. The spokesman said that this, plus the deep trench an army dredge has carved in the shoal about the ship, plus removal of her fuel oil, ammunition and provisions, plus submarine pontoons under her stern, may even cause the Missouri "to slide off the shoal by herself."

Feb. 2 was selected for the next attempt to haul the Missouri off the shoal as that is the earliest date that will bring the most favorable high tides.

Yesterday's attempts to get the ship free was called off after 19 tugs with an aggregate of 40,000 horsepower, had strained vainly for an hour and 38 minutes to move the giant man of war.

To eliminate any penalties invoked upon 500 A.F.L. Teamsters Union members who struck in Yonkers last March.

The garbage workers left their jobs for eight days in dispute over suspension of several city workers. They were fired under terms of the Condon-Wadlin Law, and later were rehired. The law provides that such rehired workers lose Civil Service rights for five years and forfeit pay increases for three years.

## SECOND HISS TRIAL GOES TO JURY

Alger Hiss, former high State Department official, currently on trial for the second time on charges of perjury, and his wife, Priscilla, arrive at Federal Courthouse, New York, Jan. 20. The case was given to the jury of eight women and four men after a 33-minute charge by Federal Judge Henry W. Goodard. The first Hiss trial ended last July in a jury disagreement.

## Elementary School News

Girls of Mrs. Disch's second grade at School 5 had a doll show. There were all kinds of dolls, some old dolls like the story in their reader; others, brand new, which we've received from Santa this year. Everyone enjoyed seeing the beautiful dolls, and hearing each girl tell her own story about her favorite entry. The boys will display items next.

Miss Edson's sixth grade of School 6 has formed a Young Citizen's Club. The purpose of the club is to help each other become better citizens.

The officers are: Clifford Miller, president; Kay Mustaparta, vice-president; Gail Fleper, secretary; Douglas Cowan, treasurer.

Children in School 5 are joining in the collection of toys for children overseas. The children's viewpoint is that "the children overseas have nothing to play with and we think they should have something to make them happy. They should have the right to enjoy themselves too. Children all over America are asked to share their toys with the children overseas."

Boys and girls of Mrs. Weber's fifth grade at School 7 are studying the natural resources of the United States. Different committees are checking information on lumber, coal, oil, water power, fish, etc. They are painting murals on different resources. The children intend to follow up this unit with one on industry in this country. The purpose is to inspire a greater appreciation of the United States.

Anytime passing Mrs. Embree's kindergarten room at School 6 this week might find himself unconsciously jumping out of the way, at the realistic sound of a train whistle. Upon further investigation, it is found that the train signals and whistles are originating in Room 1 where most of the 26 children are having fun playing "trains."

Stories, songs, pictures, discussions seems to center around the current topic of railroading. It is amazing to learn how much these five-year-olds have already observed about railroads.

At School 3 the pleasure of attending a movie, yet at the same time contributing to a worthy cause was combined on January 20 through the showing of a benefit movie. A small admission fee was charged and the proceeds were contributed to the March of Dimes.

Miss Meyer's fourth grade of School 7 find the wonders of the southwest interesting in connection with Social Studies. Students are studying in detail, the state of Arizona and the Indians who dwell in this region, the Navahos and the Pueblos.

The class has a colorful exhibit table with silver and turquoise jewelry, drums, books, travel folders, and kitchen dolls, which represent gods that pray for rain. The children have written reports on topics assigned to them and hope to put on a program in connection with this colorful unit.

If an "apple a day keeps the doctor away" the boys and girls in the Kingston public schools should be well fortified. The government's surplus of apples is put to good use by distributing them to the children. It is not only a treat—but students in Miss Israel's third grade at School 7 learn about apples, where they grow, and how foods help us to grow strong.

Hardly a day goes by without an opportunity to make Democracy work. This week boys and girls were "sharing" their toys with the children of Europe. The "Tide of Toys" sponsored by the American Legion brought forth hundreds of toys and games for those less fortunate. The children were happy to give away dolls and toys because they know that it will bring joy to other children.

At School 8 "The Call of the Wild" is being shown as a benefit movie, with a small admission charge. Proceeds will be contributed to the March of Dimes and for toys overseas.

The kindergarten of School 2, under the direction of Miss Schoonmaker, has been building background experiences through a social studies project. These experiences are necessary for developing a readiness for reading. In the corner of the room a special emphasis on their use and safety. It was fortunate that while they were discussing the electricity and the possibility of any loose wire being dangerous to touch that the telephone company was repairing wires which they could see from their window. They observed the caution they used with their long gantlet gloves.

Much emphasis was placed on the part of the policeman as a community helper when the street safety was discussed in relation to the playing of toys which they saw from their window. They noted the proper corners to cross.

Each child is also making a scrapbook in which he is illustrating these community helpers and their work.

School 8 basketball team

scored its third victory by overpowering School 7 by 45-18 Jan. 11 at School 2 court. Frank Scretto scored 22 points, Jack Dawkins was next with 10, leading their team to an easy win. School 6 also has defeated Schools 1 and 8 by high scores and has been defeated by the downtown Schools 2, 3, and 4, totaling 500 ball. The cagers are preparing for a game with School 5 this week.

The basketball team of School 2 was victorious in both games played this week. In the first round, they lost one game to School 4.

## Displays Arranged By Retail Two Class

Students from Retail Two Class at Kingston High School set up their display in Room 153 this week. One display was an arrangement of men's sportswear consisting of sport jacket, sweaters, sport shirts and ties. The arrangement was by George Carpinis, John Conroy and Charles Farley. The merchandise was used through the courtesy of Flanagan's on Wall street.

The second display was of winter sports clothing. This included a complete ski outfit with skis and ice skates with hat and mittens. A picture of a skier was used for the background. The exhibit was by David Wachtel, Donald Freer and Edward Tuet. The merchandise was secured through the cooperation of Elston's Sport Shop on Fair street.

The third display was of jewelry by Paula Davidson, Gerald Moyer and Charles Tiano. This included pearls, evening bags and ladies' wallet. The jewelry was displayed through the cooperation of Schneider's on Wall street.

## Air Reservists Will Meet Tuesday Night

A regular training session of the 9267th Volunteer Air Reserve Training Unit of the United States Air Force Reserve will be held Tuesday at 8 p. m. at the American Legion building in Kingston. First Lieutenant Leon L. Lacey will lecture on the subject of "Directed Combat Crews." Lt. Lacey served as an air force pilot during the last war and now resides in Margerville where he is in business.

First Lieutenant Joseph Deegan will present the second lecture in his series concerning guided missiles and jet propulsion. Major Lee requests all members and interested personnel to attend these meetings. Anyone desiring information about the activities of the Volunteer Air Reserve may contact Sergeant Weighall at Squadron Headquarters, telephone 6423, city hall.

## Three-Day Buffalo Rail Strike Ends

Buffalo, N. Y., Jan. 21 (AP)—A three-day strike of 400 operating employees of the South Buffalo Railroad which had idled 11,000 steelworkers ended this morning.

Federal Mediator Lawrence Farmer announced an agreement had been reached, but would not disclose its terms. It was indicated that the strike halted steel production there. He asked all coke and iron furnaces and open hearth workers to report to their superintendents at once.

The railroad, a Bethlehem subsidiary, provides the only switching service for the Bethlehem plant and for several other large industries.

Insurance on the strike of the railroad brotherhoods are a six week period of seven-day week with no loss in pay, vacation benefits and premium for afternoon, night and holiday work.
